

Jani Turpeinen

Director, Software Business Unit, Sasken Finland

Jani heads the Software business unit at Sasken Finland located in Tampere. He is responsible for software deliverables and heads the Tampere site. Jani graduated in Software Science (major), Electronics (minor) and Hypermedia (minors) from Tampere University of Technology in 2005.

He joined Ionific (acquired by Botnia Hightech in 2004 which was subsequently acquired by Sasken in 2006) as a software engineer in 2000. Within a year, Jani moved to the position of Technical Project Manager and has held several managerial positions since then working on multiple multisite projects between Finland and India. In 2011, Jani started heading the Software business unit at Sasken Finland.

Jani loves to keep fit and spends his free time as an instructor for circuit training, body pump exercise, and kettlebell trainings at the gym. He also plays volleyball and serves as the physical training coach of FC Haka Juniorit.
